

# M-LINEAR-1 FIXTURE

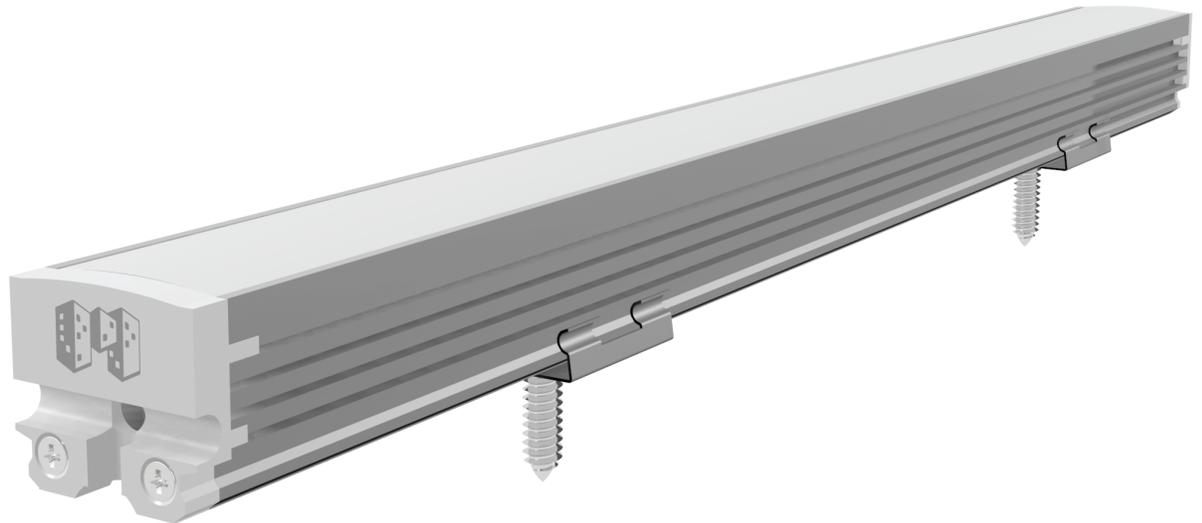

## LINEAR LED LIGHTING SOLUTIONS

Our M-LINEAR-1 Fixture is a compact anodized aluminum extrusion that can be used for a variety of applications along with any of our M-LIGHT linear LED lighting configurations. The M-LINEAR-1 Fixture features three-way cable guides permitting cables to be routed to either side or the bottom, end caps allowing for seamless end-to-end runs of LEDs, and mounting clips providing the ability to mount in wood or other materials without the need for reveals.

TOP

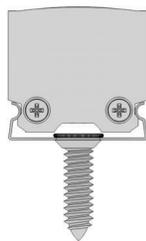

- 3-WAY CABLE GUIDES
- MOUNTS FLUSH, WITHOUT THE NEED FOR REVEALS
- SLIM ANODIZED ALUMINUM EXTRUSION
- EXTRUDED POLYCARBONATE LENS
- 1" WIDTH ALLOWS FOR 2 ROWS OF LEDS
