Metro Light & Power's line of power & data solutions offers sophisticated design elements combined with greater ease of installation. Streamlined and low-profile, enhanced by side-exiting cords, our outlets advance the industry with their cutting-edge look and feel. We believe flexibility is key, and we provide a variety of mounting options, including the ability to mount in limited spaces. Our outlets are available in many finishes and configurations, in addition to a custom color and finish capability for our clients.

Trim Plate Finish: **BLACK (ABS)**

1

CUT HOLE

2

LOAD OUTLET

Insert outlet from top at an angle, with AC cord first, then push outlet to that end, and seat the rest of it.

Mounting Clips compress to fit through hole.

3

PRESS DOWN ON MODULE TO LOCK CLIPS IN PLACE

Once outlet is seated in the hole, push modules down to lock mounting clips in place.

Mounting Clips release once through.

Compress Springs to allow mounting clips to open into locked position

4

Mounting Clips are locked, and outlet is secured.

Springs and modules return to normal position.

5T

Insta-Mount™ Removal:

Removal of the Trim Plate from furniture couldn't be easier with the Insta-Mount™ Removal System. With the use of Push Fasteners to hold the clips in place, all that is needed is a Pry Bar.

9.5" Trim/Pry Bar shown, but not included..

1

Push the pry bar straight in under the end of the Trim Plate farthest from the AC Cord and Plug, until it stops (approx .35").

2

Then, push down **firmly** on the far end of the Pry Bar until the push fasteners at that end release.

Repeat at the other end of the Trim plate to release the push fasteners at that end.

The outlet can then be easily removed.
